

**PrenuPhase – 90 caps**  
Powerful Carb & Blood Sugar Controller

PrenuPhase™ is an advanced formula providing comprehensive glycemic and metabolic management support. Three powerful blends in this formula include:

**Prenulin®** — a patented formulation of L-Arabinose and Chromax® — has been clinically proven to aid in reducing the body’s ability to absorb sugar, thereby lowering glucose and insulin impact by almost 30%. The L-Arabinose in Prenulin® works by reducing the activity of the digestive enzyme responsible for sucrose digestion while Chromax, the most clinically studied form of chromium on the market, aids in healthy glucose metabolism.\*

**Phase 2 Carb Controller®** is an all-natural, non-stimulant, white kidney bean extract clinically shown to help delay the digestion and absorption of dietary starches by temporarily inhibiting salivary and pancreatic alpha-amylase. In conjunction with a sensible diet and exercise program, Phase 2® may assist in weight control.

**InnoSlim®** is a patented, all-natural ingredient derived from Panax notoginseng and Astragalus membranaceus using proprietary extraction and processing technologies. InnoSlim® has been shown to help decrease circulating glucose and may reduce glucose absorption in the intestine while reducing fat accumulation

**Serving Size: 3 Capsules**

**Servings Per Container: 30**

**Directions:** Take three capsules with carbohydrate containing meals 1-3 times per day or as directed by your healthcare practitioner.

**Three Capsules Contain:**

L-Arabinose and Chromium† .....	1000 mg
Phaseolus vulgaris (white kidney bean) extract†† .....	1000 mg
Panax ginseng (root) extract and Astragalus membranaceus (root) extract†††.....	100 mg

**Other Ingredients:**

Hydroxypropyl methylcellulose (vegetable capsule), microcrystalline cellulose, L-leucine, bamboo silica.

**Does Not Contain:** Milk, eggs, fish, shellfish, tree nuts, peanuts, wheat, soy.
